

Brainstorming & Ideation

EduGenie – AI-Powered Learning Assistant

Brainstorming & Idea Prioritization

Learning Difficulties Identified

- Identify common learning difficulties faced by students.
- Brainstorm a single platform that can support multiple study activities.
- Combine AI-based answers, explanations, quizzes, summaries and learning plans.

Selected Idea

EduGenie – AI-Powered Learning Assistant

- A modular learning assistant powered by Google Gemini.
- Simple enough for college-level students.
- Designed to support learning from one platform.

Prioritized Features (Five Core Study Tools)

- 1 Question & Answer
- 2 Concept Explanation
- 3 Quiz Generator
- 4 Text Summarizer
- 5 Personalized Learning Path

Define Problem Statements

Challenge	Description
Difficult Concepts	Students need quick, simple explanations for difficult topics.
Self-Testing	Creating practice questions manually takes time.
Long Materials	Summarizing lengthy study material efficiently is difficult.
Unstructured Learning	Students may lack a clear path for learning a topic from scratch.

EduGenie's Response

One AI-driven assistant addresses all four learning challenges through a single interface.

Empathy Map

Target Users

- College and university students
- Self-learners
- Students preparing for exams

Says / Thinks / Does / Feels

To be added by the team.

Related needs from the problem statement: quick and simple explanations, easy self-testing, efficient summaries and a clear learning path.
