

Project Planning Phase

EduGenie – AI-Powered Learning Assistant

Project Planning

Planning Steps

- 1 Identify student learning problems.
- 2 Define features and requirements.
- 3 Design the application architecture.
- 4 Set up the FastAPI backend and Gemini connection.
- 5 Develop and integrate the five feature modules.
- 6 Test, document and demonstrate the application.

Planned Deliverables

- Working web application
- Phase-wise documentation
- GitHub project repository
- Complete demo video uploaded to Google Drive
